RE: **2023-2024 TUITION RECIPROCITY RATES FOR STUDENTS FROM NORTH DAKOTA, SOUTH DAKOTA, MANITOBA, IOWA, MSEP STATES AND WISCONSIN**

This document contains the official 2023-2024 reciprocity rates for students from North Dakota, South Dakota, Manitoba, Iowa, MSEP states and Wisconsin. Please distribute a copy of this document to your campus business, financial aid and admissions offices.

Minnesota State campuses that do not have non-resident tuition rates **must still require residents from North Dakota and Wisconsin to apply for tuition reciprocity so they are officially approved by boards in those states and included in the interstate payment calculation.** Failure to count ND and WI students at Minnesota State institutions impacts the student flow and therefore the payment calculation. Students from South Dakota can be approved for reciprocity on campus without having to apply through the South Dakota Board of Regents. Minnesota and South Dakota have waived the interstate payment.

Students from North Dakota

The attached spreadsheet (MinnesotaState24_CHART) reflects the 2023-2024 reciprocity tuition rates for North Dakota reciprocity recipients attending Minnesota State campuses.

Students from South Dakota

The chart on the next page reflects the 2023-2024 reciprocity rates for students from South Dakota.

Students from Iowa

The only participating institution, Minnesota West Community and Technical College, should charge its Minnesota resident tuition and fee rate to Iowa residents of Merged Area III in northwestern Iowa who are participating in tuition reciprocity. Other Minnesota State campuses are not covered by the Iowa agreement.

Students from Manitoba

Minnesota State campuses should charge Minnesota resident tuition and fee rates to tuition reciprocity participants from Manitoba.

Students from MSEP States (Indiana, Kansas, Missouri, Nebraska and Ohio)

Participating Minnesota State institutions/programs should charge MSEP participants up to 150 percent of the resident tuition rate at the Minnesota institution attended, plus any institutional fees. Institutions can charge anywhere from 100 to 150 percent of the resident rate. Students attending Minnesota State campuses that no longer charge non-resident rates do not need to apply for MSEP rates or be reported in MSEP enrollment reports.

*Illinois and Michigan no longer have any participating institutions in the Midwest Student Exchange Program (MSEP). The absence of any participating institutions in MSEP moves the states into an inactive status for purposes of this program. The net result of this inactive status is that resident students from Illinois and Michigan will no longer be able to receive the MSEP discounted tuition rate at institutions participating in the program. Per the MSEP Council, starting in fall 2021 for Michigan and fall 2022 for Illinois, new students will no longer qualify for the MSEP discount. Residents of these states attending out of state MSEP institutions are grandfathered into their participation in the program as long as their enrollment is uninterrupted and continues to meet the MSEP participation requirements of the institutions they attend (i.e. satisfactory progress or approved leave status in the program admitted).

Although North Dakota and Wisconsin participate in MSEP, residents from those states should not be processed under the MSEP program since Minnesota has separate reciprocity agreements with these states which provide a better benefit than the MSEP benefit. Residents from North Dakota and Wisconsin attending Minnesota institutions should be processed under the Interstate Tuition Reciprocity Program.

Students from Wisconsin

The attached spreadsheet (MinnesotaState24_CHART) reflects the 2023-2024 reciprocity tuition rates for Wisconsin reciprocity recipients attending Minnesota State campuses.
