

Board Policy 5.22 Acceptable Use of Computers and Information Technology Resources

Part 1 Purpose

This policy establishes responsibilities for acceptable use of Minnesota State information technology resources.

Part 2. Applicability

This policy applies to all users of system information technology, whether or not the user is affiliated with Minnesota State Colleges and Universities, and to all uses of system information technology, wherever located.

Part 3. Definitions

System

The Board of Trustees, Office of the Chancellor, system office, colleges and universities, and any part or combination thereof.

System information technology

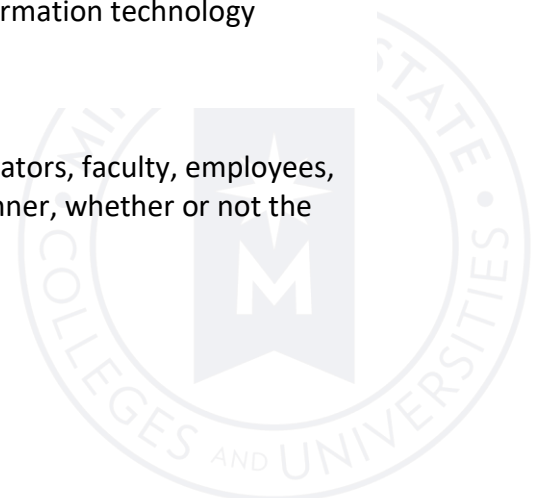

All Minnesota State facilities, technologies, and information resources used for information processing, transfer, storage and communications. This includes, but is not limited to, computer hardware and software, computer labs, classroom technologies such as computer-based instructional management systems, and computing and electronic communications devices and services, such as modems, e-mail, networks or use of a network via a physical or wireless connection, telephones, voicemail, facsimile transmissions, video, mobile computing devices, and multimedia materials.

Transmit

To send, store, collect, transfer, or otherwise alter or affect information technology resources or data contained therein.

User

Any individual, including, but not limited to, students, administrators, faculty, employees, and volunteers using system information technology in any manner, whether or not the user is affiliated with Minnesota State.

Part 4. Policy Statement

Computer and information technology resources are essential tools in accomplishing the mission of Minnesota State Colleges and Universities and its individual colleges and universities. These resources must be used and managed responsibly in order to ensure their availability.

Subpart A. Acceptable use

System information technology resources are provided for use by currently enrolled system students, administrators, faculty, employees, and other authorized users. System information technology resources are the property of Minnesota State and are provided for the direct and indirect support of the system's educational, research, service, student and campus life activities, administrative and business purposes, within the limitation of available system technology, financial, and human resources. The use of Minnesota State information technology is conditioned on adherence to this policy and any procedures or guidelines adopted pursuant to this policy.

Subpart B. Academic freedom

Nothing in this policy must be interpreted to expand, diminish, or alter academic freedom articulated under board policy and system collective bargaining agreements, or the terms of any charter establishing a system library as a community or public library.

Minnesota State is not responsible for any personal or unauthorized use of its system information technology or the security of personal data or devices on or using system information technology resources.

Part 5. Scope

Subpart A. Procedures

The chancellor shall adopt procedures under this policy, including, but not limited to: security; employee use consistent with Minn. Stat. § 43A.38 and other applicable law; monitoring; unauthorized uses; and other limitations on use.

Subpart B. Sanctions

Users who violate this policy or related system, college, or university procedures shall be subject to disciplinary action through appropriate channels. Violations may be referred to appropriate law enforcement authorities consistent with applicable law and procedures.

Date of Adoption: 07/16/03
Date of Implementation: 07/16/03
Date of Last Review: 06/18/25

Date and Subject of Revision:

06/18/25 – Full Review. Reorganized information within the sections. Updated the writing standards and outdated language.

01/25/17 - Regular Five Year Review. Applied new formatting and writing standards resulting in technical edits. Part 2 was amended to clarify that Minnesota State is not responsible for any personal or unauthorized use of system information technology, or the security of personal data or devices.

Additional HISTORY.
