

Minnesota Priorities

- Build Cross System Partnerships
- Engage Employers, Identify Key Industries and Align System with Industry Needs
- Identify and Implement Cross-System Data and Accountability Systems

Work MN Has Accomplished

- Cross System Partnerships-team members-MnSCU, MDE, DEED, ABE, Workforce Development; draft definitions; identified Career Pathway Work underway
- Engage Employers-Assessment of Employer Needs, listening sessions; access to labor market information
- Data and Accountability Systems—legislative scorecard, AQCP, WDQI, SLDS in process

Work MN Hopes to Accomplish

- Cross System Partnerships—common understanding, definitions, vision and goals; engage key partners
- Engage Employers- employer skill needs in high demand industries jointly identified; outreach strategy to engage and work with employers in high demand industries to align system with industry needs
- Data and Accountability Systems-develop shared outcomes for Career Pathway system

Questions for other states:

- Do you have a common vision and goals and how did you get there?
- What new strategies are you using to engage employers in meaningful ways?
- What strategy are you using to assess career pathway outcomes? What agreements do you have for using the data?
