Job Summary:

This position performs technical analysis, design, and development within the Reporting and Data Services team (RADS) in the system office – ITS division. The RADS team manages the Minnesota State system-wide Reporting and Data Services Platform (the RADS Platform) which provides data warehousing, data modeling and transformation, data integration, operational reporting, system-wide dashboards, and business intelligence services. This position is responsible for the design and development of business intelligence solutions including reporting, dashboards, relational and dimensional data models, ETL processes, and data services pursuant to requirements negotiated with Minnesota State stakeholders to ensure they are provided timely, accurate, and meaningful business intelligence, reporting, and data services.

Minimum Qualifications:

Resume must reflect all minimum qualifications. Please enter your experience in chronological order, including the month and year of employment.

- Bachelor's degree in an IT, computer science or management related field or equivalent combination of education and experience.

- 3 years of experience designing, implementing, and supporting data warehousing, reporting, or business intelligence functions substantially similar to the RADS platform.
- 2 years' experience designing, developing, and supporting technical data warehousing components such as database schemas and objects, stored procedures, integrations, and ETL processes.
- Experience translating business requirements into technical requirements, technical designs, and business intelligence solutions such as data models, ETL processes, reports, dashboards, and data services.
- Experience with project management principles sufficient to assist in planning projects, developing work plan and goals, and monitoring project progress.
- Strong communication and presentation skills, both written and verbal.
- Ability to develop effective working relationships with both technical staff and business partners.
- Effective written and verbal communication sufficient to ensure clear, accurate, concise and timely communications between team members and all stakeholders.

Minnesota State is unable to sponsor applicants for work visas. All applicants must be legally authorized to work in the US.

Preferred Qualifications:

- Experience working with a geographically dispersed team.
- Experience with Microsoft's platform of reporting and business intelligence tools (SSRS, SSAS, Power BI Desktop, Power BI cloud).
- 1 or more years of experience working in higher education.

Additional Requirements:

In accordance with the Minnesota State Colleges & Universities (Minnesota State) Vehicle Fleet Safety Program, employees driving on college/university business who use a rental or state vehicle shall be required to conform to Minnesota State's Vehicle use criteria and consent to Motor Vehicle Records check.

Other Information:

Employment information for this position can be found in its collective bargaining agreement or its plan document at <http://mn.gov/employee-relations/labor-relations/Labor>.
