

The following report displays Oak Land's actual performance for grant years 1-4 (2021-2024) and proposed state determined levels of performance (SDPLs) for grant years 5-8 (2025-2028). **Table 1** provides data for *secondary* performance indicators. **Table 2** provides data for *postsecondary* performance indicators.

Requirements for state determined levels of performance require that new performance targets/SDPLs must:

- Be expressed as a percentage or numerical form.
- Show continuous meaningful progress toward improving performance of all career and technical education students.
- Be higher than the average actual performance of the two most recently completed program.

For more information on actual performance during grant years 1-4 (2021-2024) please review your consortia's [annual performance report](#).

New guidance from the US Department of Education on 113(b)(3)(A)(III)(ee) from the Strengthening Career and Technical Education for the 21<sup>st</sup> Century Act requires us to set state determined levels of performance (SDPLs) “higher than the average actual performance of the 2 most recently completed program years” for *each* subsequent year of the plan. Therefore, while the SDPLs on page 2 will be implemented whenever possible, they may be adjusted for grant years 6 through 8 (2026-2028) based on actual future performance as outlined below:

- **GRANT YEAR 5:** Stated SDPLs (condition already met).
- **GRANT YEAR 6:** Stated SDPLs **OR** the average performance from grant years 3 & 4 (2023-2024) + 0.01%, whichever is higher.
- **GRANT YEAR 7:** Stated SDPLs **OR** the average performance from grant years 4 & 5 (2024-2025) + 0.01%, whichever is higher.
- **GRANT YEAR 8:** Stated SDPLs **OR** the average performance from grant years 5 & 6 (2025-2026) + 0.01%, whichever is higher.

This is indicated on page 2 with the  symbol before any SDPL in which this rule applies. Adjustments due to unanticipated circumstances outside of this will still be possible, when applicable. Grant year 5 performance levels are considered proposed until approval of the state plan.

\*The grade in which the Science assessment is offered to students in MN depends upon when students complete the Life Sciences requirements during high school. The timing of this course can vary from one school year to the next and from one district to another. Therefore, while MN reports the Science data to OCTAE, we are not required to set SDPLs for this performance indicator.
