Take - Aways

Part 1 Outcomes

After this session, participants will be able to:

1. Identify the documents needed to complete the Local Application process.
2. Provide responses to the components of the *CLNA Results and Priorities* document as part of the consortium application plan.
3. Identify factors to consider when prioritizing consortium needs.
4. Provide responses to the components of the *Perkins V Local Application* document as part of the consortium application plan.
5. Write clear, observable, and measurable outcomes for prioritized needs addressed in the application plan.

Perkins V Local Application Process

“Pulling the Needle Through” to align processes and reduce duplication between documents

CLNA = Needs & Priorities

APR = Outcomes

Plan = Strategies
