# **BLS New Instructor Course Agenda**

#### **Prerequisites**

- The instructor candidates must have a current provider card.
- Instructors will need to have an instructor manual and an Essential Workbook.
- New instructors must register with the AHA but don't align until everything has been completed and turned in.
- New Instructors go to The MRTC homepage to find instructions and profile forms. Google MRTC if you forget the link to get to the homepage.
- New Instructor to take the online essential at <u>https://shopcpr.heart.org/courses/instructor-essentials</u>. You can Google AHA online essentials to find this link.
- Pay MRTC biennial dues.

### **MRTC** website

https://www.minnstate.edu/system/asa/workforce/mrtc/index.html.

- 1) For new instructors make sure they register with the AHA, but don't align with a TC.
- 2) They fill out all the paperwork, it is signed by all and legible.
- 3) Make sure the email address they use to sign into the AHA atlas account matches the one they give us on the profile form.
- 4) Send the completed paperwork to <u>SO-MRTCIPF@minnstate.edu</u> and please make sure that each PDF only has one instructor profile and labeled with the name of that person.
- 5) Pay MRTC biennial dues.
- 6) Send me the Excel template so I can upload the class, close the class and then the eCards get automatically sent to their notifications in Atlas. The Excel template comes directly from the AHA and needs to be uploaded exactly as it was given. Template can be found on the MRTC homepage under
- 7) Once I receive all the packets and process them, Kelli will send a letter via email to instructors with their MRTC database# and their AHA#.
- 8) They should then go into Atlas and open their notifications/profile so they can accept their instructor card.
- 9) They should then go into Atlas and click on Training resources, then training center search, type in Minnesota State—we are the second one down, then click on that to make sure they are aligned with MRTC.

Use Instructor Essentials in conjunction with this outline. Follow link or look up on AHA Instructor Network.

## Classroom Traininghttps://cpr.heart.org/course-materials/instructor-essentials

- Introductions, discuss agenda, go over prerequisites to make sure they were done, and collect the essentials certificates. Go over the Instructor manual, Training Center information, MRTC website and the AHA Instructor Network. Go over blended learning/Heartcode. Requirements to renew a person's instructor status.
- Hand out current profile packets. This will include skills sheets and course monitoring sheets. Discuss the sheets and help them start filling out the first 3 pages. Use the checklist on the cover sheet to help guide you.
- **3.** Show the Instructor essentials video. This is the practical portion of the videos. Demonstrate how the practical portion of class should go and pass along information that you may have.
- 4. Have Instructor candidates test one another out on their skills and utilize the skills sheets in the instructor packet. They can also use the instructor manual if needed.
- 5. Candidates to take the instructor exam and the provider exam is optional but a good idea. The instructor exam goes over the PAM and the provider exam is what instructors give out in their provider classes.
- 6. Review the tests together and answer any questions. Use the instructor manual to find the right answers.
- **7.** Go over Heartsaver information, skills, and First Aid. BLS instructor can also teach HS.
- 8. BLS class monitoring can now be done on the same day if you make time. The candidate has 6 months to complete the course monitoring.
- 9. The TCF is responsible for the profile forms being filled out completely, correctly, signed and the cover sheet list is all checked off. When sending in the profile packets make sure they are in pdf form, a copy is sent to the candidates, and you save the paperwork for 3 years. Send all profile packet to <u>SO-MRTCIPF@minnstate.edu</u>.

# **BLS Instructor Renewal Course Agenda**

#### **Prerequisites**

- All renewing instructors must have taught 4 classes and entered their classes into the MRTC database.
- If the renewing instructor has been monitored, they should bring that paperwork to class.
- Pay MRTC biennial dues at
   <u>https://www.minnstate.edu/system/asa/workforce/mrtc/index.html</u>

#### <u>Classroom</u>

- 1. Introductions, discuss agenda, go over prerequisites to make sure they were done. Go over the Instructor manual, Training Center information, MRTC website and the AHA Instructor Network.
- **2.** Hand out current profile packets. This will include skills sheets and course monitoring sheets. Use the checklist on the cover sheet to help guide you.
- **3.** Review any guidelines changes or updates made by the AHA.
- 4. Have Instructor candidates test one another out on their skills and utilize the skills sheets in the instructor packet. They can also use the instructor manual if needed. Make sure the CCF ratio is being utilized for BLS skills.
- 5. Candidates to take the instructor exam and the provider exam is optional but a good idea. The instructor exam goes over the PAM and the provider exam is what they will be giving out in their provider classes.
- 6. Review the tests and together and answer any questions. Use the instructor manual to find the right answers.
- 7. Go over Heartsaver information, skills, and First Aid. BLS instructor can also teach HS.
- **8.** BLS class monitoring can now be done on the same day if you make time. The candidate has 6 months to complete the course monitoring portion.
- **9.** The TCF is responsible for the profile forms being filled out completely, correctly, signed and the cover sheet list is all checked off. When sending in the profile packets make sure they are in pdf form, a copy is sent to the candidates, and you save the paperwork for 3 years.

## The American Heart Association (AHA)

- The AHA is in Dallas Texas and is a worldwide organization.
- The AHA Instructor Network has great information and is the central resource for all questions. You can call the AHA at 1-877-242-4277.
- Every Instructor **must** align with a Training Center and purchase their E-Cards from that Training Center.
- Use the Program Administration Manual (PAM) to guide you as an instructor.
- Online learning can be found at <u>https://elearning.heart.org</u> . HeartCode/Blended Learning.
- Make sure you follow and get the AHA ECC Beat. A monthly newsletter from the AHA.
- Look for any updates before class on the AHA Instructor Network. Updates usually occur every 5 years but the AHA does update disciplines periodically.
- Materials can be ordered at <u>https://shopcpr.heart.org</u>. They will give you a discount if you are affiliated with MRTC.
- **Course Materials** on the AHA Instructor Network is a great resource for class materials, course outlines and class handouts.

## Multi Regional Training Center (MRTC)

- MRTC is an AHA Training Center and is part of the Minnesota State Colleges and Universities.
- MRTC is the largest Training Center in the Midwest.
- MRTC has full time staff—The TCC is Ric Chiodo (MRTC Manager) 651-724-9701 <u>ric.chiodo@minnstate.edu</u>. Kelli Lyng (MRTC Assistant) 651-605-0796 <u>kelli.lyng@minnstate.edu</u>.
- MRTC has website that can be found at: <u>https://www.minnstate.edu/system/asa/workforce/mrtc/index.html</u>. If you forget this website link then Google MRTC and you will want to click on the Multi Regional Training Center. Use the MRTC website to enter the Instructor Network, enter the MRTC database and order E-cards.
- Use the MRTC website to find the current instructor profile packets. Once on the MRTC website click on the appropriate discipline on the right side of the page. Use the cover page checklist to guide you. Please make sure all fields are filled out and everyone has signed the proper areas before sending the profile packet. Pay MRTC dues.
- You must request provider and instructor exams via email to Ric or Kelli.
- Training Center Faculty are experienced instructors who are given that title by the TC. The TCF designation does not supersede nor take the place of renewing your instructor status. TCF's train new instructors and renew instructors. They are responsible for all paperwork, assisting those they teach and are a vital part of the Training Center. TCF's renew every 2 years and need to teach at least 2 instructors in 2 years.

### Basic Life Support Infant CPR Skills Testing Checklist (1 of 2)

Student Name

Date of Test

Hospital Scenario: "You are working in a hospital or clinic when a woman runs through the door, carrying an infant. She shouts, 'Help me! My baby's not breathing.' You have gloves and a pocket mask. You send your coworker to activate the emergency response system and to get the emergency equipment."

Prehospital Scenario: "You arrive on the scene for an infant who is not breathing. No bystander CPR has been provided. You approach the scene and ensure that it is safe. Demonstrate what you would do next."

#### **Assessment and Activation**

D Checks responsiveness

D Checks breathing

D Shouts for help/Activates emergency response system D Checks pulse

Once student shouts for help, instructor says, •Here's the barrier device."

#### Cycle 1 of CPR (30:2) "CPRfeedback devices are required for accuracy

#### **Infant Compressions**

D Performs high-quality compressions\*:

- Placement of 2 fingers or 2 thumbs in the center of the chest, just below the nipple line
- 30 compressions In no less than 15 and no more than 18 seconds
- Compresses at least one third the depth of the chest, approximately 1<sup>1</sup>/<sub>2</sub> inches (4 cm)
- · Complete recoil after each compression

#### **Infant Breaths**

D Gives 2 breaths with a barrier device:

- Each breath given over 1 second
- · Visible chest rise with each breath
- · Resumes compressions in less than 10 seconds

Cycle 2 of CPR (repeats steps in Cycle 1) Onlycheckbox If step Is successfully performed D Compressions D Breaths D Resumes compressions in less than 10 seconds

Rescuer 2 arrives with bag-mask device and begins ventilation while Rescuer 1 continues compressions with 2 thumbencircling hands technique.

#### Cycle 3 of CPR

#### Rescuer 1: Infant Compressions

- D Performs high-quality compressions\*:
- 15 compressions with 2 thumb-encircling hands technique
- 15 compressions in no less than 7 and no more than 9 seconds
- Compresses at least one third the depth of the chest, approximately 11/2 Inches (4 cm)
- · Complete recoil after each compression

#### **Rescuer 2: Infant Breaths**

This rescuer is not evaluated.

**Instructions**: Training Faculty (TF) should use this form to assess the competencies of instructor candidates and renewing instructors. For each competency, there are several indicators or behaviors that the instructor may exhibit to demonstrate competency.

#### To be used in conjunction with the Instructor/TF Renewal Checklist.

#### **Role of the TF Observer:**

The role of the TF observer for this monitoring is to observe only. Debriefing or correcting the instructor during the course should be avoided. If critical components are not being completed, contact the TC Coordinator or Course Director outside the classroom setting immediately.

#### **Evaluating the Critical Actions:**

The following questions are critical actions required for a successful course. Each item is written to maximize the objectivity and minimize the subjectivity of the evaluator. For each item, mark one of the following:

Yes	for items present or completed if there are no required changes for improvement.
	There may be recommendations for improvement and comments but no required
	changes.
Yes with req.	(Yes with requirements) for items that were completed but <i>changes are required</i>
	for full compliance. Fill in the comment box with the required change and rationale.
No	if the required action was not done or was done incorrectly.
Not Observed	for items the observer did not witness during monitoring.

## **SECTION 1:**

General information for the individual and course being observed.
