Section I. General Information

Background

Minnesota State Colleges and Universities is the third-largest system of higher education in the United States. It is comprised of 37 two-year and four-year state colleges and universities with 54 campuses located in 47 Minnesota communities. The system serves approximately 350,000 students each year. The Minnesota State Colleges and Universities is an independent state entity that is governed by a 15 member Board of Trustees. The law creating the system was passed by the Minnesota Legislature in 1991 and went into effect July 1, 1995. The law merged the state's community colleges, technical colleges and state universities into one system, other than the University of Minnesota campuses. For more information about Minnesota State Colleges and Universities, please view its website at https://www.minnstate.edu.

The Minnesota State System Office sponsors Luoma Leadership Academy, an 18-month leadership development program designed to nurture leadership talent for Minnesota State. Because of the cohort-based nature of the program, two week-long residential workshops for each cohort are hosted in a conference center setting. The residential workshops are scheduled a year apart from each other. The program includes a year-long practicum experience between training sessions, with support and guidance provided by participant-selected college mentors, program facilitators, executive coaches, and a team-based action learning project to be completed in the intervening year between. Participants have included department and faculty deans, human resource directors, business managers, chief financial officers, as well as individual contributors and faculty who aspire to future leadership positions.

The System Office reserves the right to accept or reject proposals, in whole or in part, and to negotiate separately as necessary in order to serve the best interests of the System Office. This RFP shall not obligate the System Office to award a contract or complete the proposed project and it reserves the right to cancel this RFP if it is considered to be in its best interest.

Organizational Conflicts of Interest

The responder warrants that, to the best of its knowledge and belief, and except as otherwise disclosed, there are no relevant facts or circumstances that could give rise to organizational conflicts of interest. An organizational conflict of interest exists when, because of existing or planned activities or because of relationships with other persons, a vendor is unable or potentially unable to render impartial assistance or advice, or the vendor’s objectivity in performing the contract work is or might be otherwise impaired, or the vendor has an unfair competitive advantage. The responder agrees that, if after award, an organizational conflict of interest is discovered, an immediate and full disclosure in writing must be made to the respective school’s chief financial officer or the System Office’s Business Manager that must include a description of the action which the vendor has taken or proposes to take to avoid or mitigate such conflicts. If an organizational conflict of interest is determined to exist, the school or System Office may, at its discretion, cancel the contract. In the event the responder was aware of an organizational conflict of interest prior to the award of the contract and did not disclose the conflict to the contracting officer, the school or System Office may terminate the contract for default. The provisions of this clause must be included in all subcontracts for work to be performed similar to the service provided by the prime contractor, and the terms “contract,” “contractor,” and “contracting officer” modified appropriately to preserve MnSCU’s rights.

Physical and Data Security

The vendor is required to recognize that on the performance of the contract the vendor will become a holder of and have access to private data on individuals and nonpublic data as defined in the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13; and other applicable laws.

In performance of the contract, the vendor agrees it will comply with all applicable state, federal and local laws and regulations, including but not limited to the laws under Minnesota Statute Chapters 13 relating to confidentiality of information received as a result of the contract. The vendor agrees that it, its officers, employees and agents will be bound by the above confidentiality laws and that it will establish procedures for safeguarding the information.

The vendor agrees to notify its officers, employees and agents of the requirements of confidentiality and of the possible penalties imposed by violation of these laws. The vendor agrees that neither it, nor its officers, employees or agents will disclose or make public any information received by the vendor on behalf of MnSCU and the System Office.
The vendor shall recognize MnSCU’s sole and exclusive right to control the use of this information. The vendor further agrees it shall make no use of any of the described information, for either internal or external purposes, other than that which is directly related to the performance of the contract.

The vendor agrees to indemnify and hold harmless the State of Minnesota, MnSCU and the System Office from any and all liabilities and claims resulting from the unauthorized disclosure by the vendor, its officers, employees or agents of any information required to be held confidential under the provisions of the contract. The vendor must return all source data to the “Authorized Representative” to be identified in the contract.
